

BIZNEO HR SUITE EXTENDED PROFILE

bizneo

OVERVIEW

Bizneo is a cloud-based HRMS that combines recruitment, time and attendance, performance management, learning, document management, and other HR tools into a single suite.

Companies can pick individual modules or adopt the whole suite, which Bizneo positions as an integrated talent and workforce management platform used by thousands of organisations across multiple countries.

CORE CAPABILITIES

- Applicant tracking and recruiting. Multipost job listings, parse CVs, score candidates, and track pipelines with built-in analytics. The recruitment module aims to cover sourcing, screening, and selection in one workflow.
- Time and attendance. Clock in and out, manage shifts and overtime, produce legally compliant reports for payroll and audits, and connect to biometric devices and payroll systems.
- Performance and development. Create custom evaluation models, run 360 reviews, and tie evaluations to training plans and succession paths.
- Learning and training management. Deliver courses, track completions, run quizzes, and manage training requests and calendars.
- Document management and e-signature. Store and distribute payslips, contracts, and HR records securely and apply digital signatures for workflow completion.

These modules integrate into an employee self-service portal so employees and managers can handle common tasks without heavy HR intervention.

HOW MUCH DOES BIZNEO COST?

Bizneo sells modular subscriptions and provides customised quotes that vary by modules and user count.

Download the extended software profile for a breakdown of the pricing tiers.
